

# APOLLO

THE INTERNATIONAL ART MAGAZINE

# A note from the editor

Since it was founded in 1925, Apollo has been widely regarded as one of the world's leading art magazines. That reputation was built on publishing the best writing and thinking about the fine and decorative arts, and on the magazine's exceptional production values – which is something that continues to this day, although we're now just as likely to carry sparkling profiles of renowned international artists as we are to run illuminating essays about ground-breaking historical exhibitions.

At Apollo, we pride ourselves on publishing authoritative writing about art, whatever the field or focus. In recent years, our vastly expanded digital offer has allowed us to combine some of the sharpest art criticism out there with outstanding comment and opinion that reacts to breaking news in the art and museum worlds. Today Apollo is not only the go-to place for the best articles about objects and collections, but also for the best articles about the contexts in which we look at them – whether cultural, social or political.

Apollo boasts access to the leading figures of the art world: the top artists, collectors, museum directors and curators. Yes, they feature in the magazine in print and online. But they also follow us: with projects such as the Apollo 40 Under 40, our pick of the art world leaders of tomorrow, and with our daily news updates and comment articles, today Apollo is as much a place to read about the future of art as it is to keep learning about its past.
